TELEVTAIA ORA, PATRIS CONTINUE COUP RUMORS

Ankara Domestic Service in Turkish 1015 GMT 12 August 1965--M

(Text) Nicosia--From our special correspondent--TELEVTAIA ORA persists in its allegation that a coup will be carried out in Cyprus in order to put Makarios out of action. The paper says that the coup will come sooner than expected and maintains that the American CIA has again placed the Greek intelligence service under its control.

TELEVTAIA ORA quotes an official of the Greek Royal Palace as having said that Grivas is in the service of the United States. The official in question asked that his name be withheld until 3 September and maintained that after that date it will be mentioned with respect.

PATRIS, on the other hand, reports that Makarios' personal physician Lissaridhis has a special army of his own and that he will carry out a coup when the time comes in order to prevent enosis. Referring to a statement by Lissaridhis that he had pledged to oppose an unacceptable solution by taking up arms, PATRIS points out that enosis is the solution which Makarios' personal physician is unable to accept.
